| 8 Ground-zero stone | |

The park of Snežnik castle complex warmly welcomes every visitor and offers many avenues, promenades, clearings and water elements to enjoy along some former horse riding trails which will guide you down the nature trail. You can enjoy the walk alongside the vast forests of Snežnik, home to all three large carnivores in Slovenia – the brown bear, the wolf and the lynx. The walk will not be tiresome, but it will expand your knowledge about nature. Free your mind and indulge in the thoughts about forest and all the wonders the animal world has to offer.
